

DECEMBER 2015

DEAL CLOSED

Technogenetics Srl, previously controlled by Bouty SpA (this latter controlled by the Swiss group IBSA) has been acquired by **KHB Shanghai Kehua Bio-engineering Co. Ltd.**

**Total stake to
KHB Shanghai Kehua Bio-engineering Co. Ltd**

KHB 科华生物

Once purchased by KHB, Technogenetics Srl passed under control of a NewCo called Technogenetics Holding Srl, where Altergon Italy also transferred its *in vitro* diagnostic activities as well as its R&D activities in Italy and in China (Qingdao and Shenzhen).

Kehua Bio-engineering KHB Co. Ltd. is one of China most important pharmaceutical actors and one of the most interesting emerging worldwide players in the development and production of *in vitro* diagnostics. The Company is controlled by FountainVest and Central Huijin Investment Ltd, among two of the largest institutional investors in China.
